

Women's Printable Shoe Size Guide

Print off the Mozimo women's shoe size guide on A4 paper at 100% scale and place it on the floor with the toes pointing away from you.

Check it is to scale using a ruler.

Place your foot on the paper with your heel matching the one on the guide.

Make a note where the longest part of your foot is using a ruler to match it up to the scale on the right. Repeat for the other foot.

As a general rule, you should have around 10mm space between your longest toe and the shoe. If your feet are different sizes then take the largest as your shoe size.

Now that you know your size, head over to www.mozimo.co.uk and browse our huge selection of women's shoes, boots, sandals, trainers and more. All orders over £30 come with free delivery and returns!
